CHAPTER - I

EXECUTIVE SUMMARY

"HTML" is the universal markup language for the web. HTML lets you format text, add graphics, create links, input formats, frames, and tables etc. and save it all in a text file that any browser can read and display.

Objectives :-

- * Creates a Web page.
- * Use cascading style sheets.
- * Creating link within a web page
- * Insert heading levels within a webpage.
- * validate and publish a web page.

Learning Outcomes :-

- * Learned about Gmail creation, using Skype, Kanbanflow, google docs, google sheets,
- * Learned about preparing Excel sheets, PPT.
- * Learned about communication skills, interview skills.

* Learned how to use and utilize the google calendar and create accounts in udemy to learn any courses.

Learn CSS:—

"css" lets you style your HTML pages. CSS gives you total control of the layout without messing up the document content.

Learn JavaScript:—

"JavaScript" makes your website more dynamic. A dynamic website can react to events and allow user interaction. JavaScript is the most popular scripting language on the internet and it works with all major browsers.

Learn Bootstrap:— Easy to use and anybody just basic knowledge of HTML and CSS can start using bootstrap. It is a collection of CSS Bootstrap. It is a collection of CSS classes and JavaScript function and it is used for responsive, mobile-first site and application.

CHAPTER - II

OVERVIEW OF THE ORGANIZATION

"MALTech" is an upcoming IT service providing company based out of Southern India with excels in web designing, product Development and SEO services. Our prime objective is to significantly amplify and meet the ever-increasing sophisticated business and technology needs of today's global market. We seek to revolutionize the way people use the technology to communicate, conduct business, gain information and create business visibility. We at MALTech, believe in innovation and continuous improvement our objective is to accord and attend clients with original ideas, responsive approach and aid in business acquisition and growth opportunities. Our promising website designing, researched product development and scale-able Organic Search Engine optimization (SEO) Services.

They are amazingly flexible and endeavors to be adapted. MALTech team is happy to deliver products that makes our client happy, and support with revisions we deliver Excellence at all level. Our inventive designers, Experienced

developers and SEO teamwork cohesively and effectively to deliver projects within set deadlines.

MALTech Solutions private Limited is a 3 years 1 month old private company. incorporated on 15 Nov 2019. It's registered office is in Guntur, Andhra Pradesh, India.

* Services *

IT Services:- We are a trusted brand offering Exceeding IT services to our clients all over the Globe.

SEO optimization:- Your website reach will have built, in SEO, so your site will be found on Google.

Digital Marketing services:- At MALTech, we propose and initiate Excellent communication and Strategies.

Product Development:- The unique and innovative creations of our expert product developers run applications.

Graphic Designing:- Our team of professional graphic designers plan and design visual content with technology.

CHAPTER - III INTERNSHIP ON

The "National Education policy (NEP)" 2020 makes internships mandatory and calls for research as a requirement for graduation all domains. Specifically for the four years graduate programs. Hence the users "UGC" has issued guidelines. Programs/instructing educational institutions how to go about this.

The "Govt. of Andhra Pradesh", higher education Department has introduced skill and skill development courses along with three mandatory internships during their graduation. The "Andhra Pradesh" State Council of higher education has given the instructions to all the colleges and universities. Hence the internship is mandatory for degree students. The commissioner of the collegiate Education and concerned universities are the implementing authorities. Here I am going to explain the internship, working conditions, work schedule, what equipment users for internship and how I have successfully completed the tasks given by the mentors. And what kind of skills acquired etc. are discussing in this chapter.

Need For Basics of computer:-

Basic computer knowledge is about how computer work and how to use them. This may include typing learning keyboard commands powering a computer on and off knowing how to connect and disconnect the internet to a computer. It can help you understand different operating systems and application software. Whether you are a college graduate, salesperson, marketer, copywriter, teacher or working professional you are required to know the computer basics. Having basic computer knowledge makes it easier to compute everyday tasks and increases workplace productivity.

Internship and it's importance:-

An internship is a period of work experience offered by an organization for a limited period of time. Once continued to graduates internship is used practice for a wide range of placements in business, non profit organization and government agencies.

* Fulfilling tasks set out by supervisors from several departments.

* Performing research at a supervisors request.

* Creating sites, login, logout pages and creating Audio's, video's using HTML.

Skills Aquired During Internship :-

While getting an internship is one part of the internship process. It is complete only when I grasp the relevant skills through my experience it will get to learn alot of technical skills. I learn many logical techniques in "UI Developers"

Learn About UI Developers :-

* HTML For Beginners.

* HTML / CSS from scratch.

* HTML, CSS and Java Script

* BOOTSTRAP

* complete Bootstrap 4 courses - build 3 projects.

CHAPTER - IV WEEKLY REPORT

Activity Log for the Week - 1

Day & Date	Brief Description of the daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 Date: 29/9/22	Introduction to Training	1. UI Developer 2. Digital marketing 3. Graphical designs 4. Content Writing 5. Physical Marketing	✓
Day -2 Date: 30/9/22	Gmail creation	Creating Gmail account in step by step process for myself or business	✓
Day -3 Date: 3/10/22	Using Skype	Creating Skype account and share links to people invite video audio chats links	✓
Day -4 Date: 5/10/22	Kanbanflow	Creating Project Board and schedule our day to day work.	✓
Day -5 Date: 8/10/22	Google Docs	Creating, editing Formatting files and documents.	✓
Day -6 Date: 11/10/22	Google Sheets	Data visualization Spread sheets editing & formatting	✓

Weekly Report

Week - 1 (From Date: 29/9/2022 to Date: 11/10/2022)

Objective of the Activity Done:

Detailed Report: Gmail creation:- created a new mail account in step by step process for my self. and learn about the Gmail like which languages are used in mail creation, who invented and which category and also uses and advantages.

using skype:- This is also create a new skype account and learn about the skype benefits. in skype using to share links invite friends for video call and audio calls and also chattings.

Kanbanflow:- created a kanbanflow website. I was practised the kanbanflow website examples like do today, Done.... and learn about the details and benefits of kanbanflow.

Google Docs:- created a small project in Google Docs. Docs using for editing files and documents. In pdf format to convert the Docs and modify the content. learn the details and benefits of google docs.

Google sheets:- create a class class time table and learn the uses and benefits of Google sheets. It is very useful. Data visualization and add special characters. sheets are working in computers without internet.

Activity Log for the Week - 2

Day & Date	Brief Description of the daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 Date: 12/8/22	Excel	create graphs, charts and tables add background color	✓
Day -2 Date: 13/8/22	PPT	Preparing slides using images and tables	✓
Day -3 Date: 14/8/22	communication skills	Self confidence social learning positive body language.	✓
Day -4 Date: 15/8/22	Interview skills	Really I don't know what is interview skills but now learn all the details of interview skills	✓
Day -5 Date: 16/8/22	Zoom meeting	create a zoom account and practised the uses of zoom meeting. like link creation.	✓
Day -6 Date: 18/8/22	using calendar	Download Google calendar and create a hr annual calendar and learn the basic information.	✓

Weekly Report

Week - 2 (From Date: 12/10/22 to Date: 18/10/22)

Objective of the Activity Done:

Detailed Report: Excel:— Excel is used to create charts, graphing tools, tables, and some modifications. It is like Google sheets But this is Run in offline also. I learn all the features of Excel. It is Very useful.

* PPT:— It is a powerpoint presentation, preparing presentation about a topic with pictures, tables and charts and formatting the slide backgrounds and font format, paragraph formatting, Adding text to slides.

* communication & Interview Skills:— This one face the tough interview without failure. self confidence is main in skills. setting smart goals and achieve that goals in successful Esteem is good hobbie. Body language in successful Esteem is and spoken English is used in business purpose (or) deals.

* Zoom Meeting:— used to conduct meeting & classes. sharing presentations in meeting & record.

* using calender:— used to planning our daily activities with time to time.

Activity Log for the Week – 3

Day & Date	Brief Description of the daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 Date: 19/10/22	HTML for Beginners -1	HTML is used to create web pages and applications	✓
Day -2 Date: 20/10/22	HTML/ CSS form scratch-1	HTML is widely used language on web	✓
Day -3 Date: 21/10/22	HTML for Beginners-2	Web document creation. Internet navigation culting Edge features	✓
Day -4 Date: 22/10/22	HTML/ CSS-2	CSS uses the single attribute of an HTML element	✓
Day -5 Date: 23/10/22	HTML/ CSS form scratch-1	HTML is widely used language on web.	✓
Day -6 Date: 25/10/22	HTML/ CSS-2	CSS uses the single attribute of an HTML element	✓

Weekly Report

Week - 3 (From Date: 19/10/22 to Date: 25/10/22)

Objective of the Activity Done:

Detailed Report: "HTML" is a markup language rather than a programming language this is a web development these have a structure to create tables, audio, video, etc, ... This format is used when the structure of html is many tags like text-area, tag, br tag, pr-tag, h-tag, code tag, input tag, title tag, meta tag, script tag, style tag.

This has main talent are in body tag. In head tag was many titles are giving in this tag and text in paragraph, adding links in html And adding image (or) creation image when image tag is used. In table tag has rows, columns and table headings; bg color, text, font.. Etc, preparing resumes & registration form, to creating html tag is used.

"CSS" [cascading style sheets] is used to style and layout webpage. For example, to outer the font, color, size, and spacing of your content, split it into multiple columns, or add animations and other decorative features. 3 types of CSS. They are "Inline"; "Internal/Embedded"; "External CSS".

Activity Log for the Week – 4

Day & Date	Brief Description of the daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 Date: 26/10/22	Bootstrap-1	Bootstrap require the use of the HTML-5	✓
Day -2 Date: 27/10/22	Bootstrap-2	Bootstrap style sheets are written invariant of CSS	✓
Day -3 Date: 28/10/22	Bootstrap-1	Bootstrap require the use of the HTML-5	✓
Day -4 Date: 29/10/22	Bootstrap-2	Bootstrap style sheets are written invariant of CSS	✓
Day -5 Date: 30/10/22	Bootstrap-1	Bootstrap require the use of the HTML-5	✓
Day -6 Date: 1/11/22	Bootstrap-2	Bootstrap style sheets are written invariant of CSS.	✓

Weekly Report

Week - 4 (From Date: 26/10/22 to Date: 1/11/22)

Objective of the Activity Done:

Detailed Report: "Bootstrap" provides a clean and uniform solution for building an interface for developers. It contains beautiful and functional built-in components which are easy to customize. It also provide web based customization and best of all its an open source bootstrap come with the features of global CSS settings, fundamental HTML elements styled and enhanced with extensible classes and an advanced grid system this is covered in detail in the section. Bootstrap with CSS used for who has a basic knowledge of HTML and CSS.

Bootstrap and uses CSS grid where previously web developers would have used floats. A key feature of grid is that they collapse of smaller widths & items that would be in a row will appears a single column on smaller devices. Bootstrap replace the bootstrap JavaScript each component has been built from scratch as a true component, without dependencies like jQuery. Each component is implemented with accessibility in mind.

Activity Log for the Week – 5

Day & Date	Brief Description of the daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 Date: 2/11/22	Bootstrap	Bootstrap is a powerful, feature-packed tool kit	
Day -2 Date: 3/11/22	complete bootstrap 4 course build 3 projects.	Bootstrap is to create front end web page.	
Day -3 Date: 4/11/22	HTML	HTML is the mainly used for website creation.	
Day -4 Date: 5/11/22	Javascript	Javascript is the main language for website	
Day -5 Date: 6/11/22	Bootstrap	Bootstrap is to create front end webpage	
Day -6 Date: 8/11/22	CSS	It is used for the website creation.	

Weekly Report

Week - 5 (From Date: 2/11/22 to Date: 8/11/22)

Objective of the Activity Done:

Detailed Report: "Bootstrap" is very easy to use and implement if a person has some basic knowledge of HTML and CSS, that user can easily use Bootstrap can adapt to the size of any phone tablet, desktop. It also produces less cross-browsers bugs. Designed to enable responsive development of mobile-first websites, provides a collection of syntax for template designs.

"Bootstrap" includes HTML and CSS based on design templates for typography. In the process of building projects. we created - Modal login, triggering modal, login modal finished. We practised some bootstrap 4 programs like colors, buttons, Jumbotron, Navbar & Nav colors, carousel in Bootstrap 4. Bootstrap-4 is a newer version of bootstrap. which is used the most popular "HTML", "CSS" and "Javascript" framework for developing responsive, mobile-first websites. Bootstrap is a CSS framework and Toolkit.

Activity Log for the Week – 6

Day & Date	Brief Description of the daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 Date: 9/11/22	Learning Bootstrap -4 by Example	Bootstrap is a free, open source front end library for designing website	L
Day -2 Date: 10/11/22	HTML, CSS, and Javascript	HTML, CSS, Javascript are three main languages used to build websites	L
Day -3 Date: 11/11/22	HTML	HTML is the main languages used to build websites	L
Day -4 Date: 12/11/22	CSS	CSS is the more use ful for the website	L
Day -5 Date: 13/11/22	Javascript	Javascript is the useful for the website creation.	L
Day -6 Date: 15/11/22	Bootstrap	Bootstrap to Create Websites of the Internet.	L

Weekly Report

Week - 6 (From Date: 9/11/22 to Date: 15/11/22)

Objective of the Activity Done:

Detailed Report:

Bootstrap-4 is a newer version of Bootstrap which is the most popular HTML, CSS & Javascript framework for developing responsive, mobile-first website.

Bootstrap is widely used by professional web developers. creating apps and sites for companies in many sectors. I learnt bootstrap-4 using HTML, CSS and practised some practise sheets like customizing bootstrap-4, Navigation, Hero section, using the grid, form section.

HTML, CSS & Javascript these are three main languages we used to build websites.

"Javascript" is the programming language. we use "HTML" to structure the site. And we use "CSS" to design and layout the webpage. Now a days, CSS has become more than just a design language, though. I learnt about what is HTML and what is CSS and what is Javascript. and practised some practice sheets about HTML, CSS and bootstrap and Javascript.

Activity Log for the Week – 7

Day & Date	Brief Description of the daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 Date: 16/11/22	Design of the site	Learned how to design a website	
Day -2 Date: 17/11/22	prepare content of a website	learnt content of a website	
Day -3 Date: 18/11/22	HTML	learnt about HTML and used to create the website	
Day -4 Date: 19/11/22	CSS	learnt about CSS and used to background color in HTML	
Day -5 Date: 20/11/22	Bootstrap	learnt about bootstrap and open source font End library	
Day -6 Date: 22/11/22	prepare content of a website	learnt content of a website	

Weekly Report

Week - 7 (From Date: 16/11/22 to Date: 22/11/22)

Objective of the Activity Done:

Detailed Report:

- * learned how to design a website using HTML, CSS and practised the design of a website.
- * learnt how to give content for a website by its specification and practised content for a website.
- * HTML - Hyper Text - Markup Language used to create and develop the website. Learnt all details of HTML and practised the programs related to it.
- * cascading style sheets [CSS] used to background colors, color to font, pictures, videos etc., in HTML. Learn about CSS and practised some of the programs related to it.
- * Bootstrap is the most popular HTML, CSS framework for developing responsive website and webpages. Learnt about bootstrap and complete bootstrap is and briefly practised and build 3 projects.

Activity Log for the Week – 8

Day & Date	Brief Description of the daily Activity	Learning Outcome	Person In-Charge Signature
Day -1 Date: 23/11/22	Header	learnt how to create a header for a website	L
Day -2 Date: 24/11/22	Footer	Learnt how to create a footer for a website	L
Day -3 Date: 25/11/22	Login page	Learnt how to create a login page for a website	L
Day -4 Date: 26/11/22	sign up page	Learnt how to create a sign up page for a website.	L
Day -5 Date: 27/11/22	Registration page	Learnt how to create a Registration for a website.	L
Day -6 Date: 28/11/22	uploaded a site	learnt how to upload a website	L

Weekly Report

Week - 8 (From Date: 23/11/22 to Date: 28/11/22)

Objective of the Activity Done:

Detailed Report:

* Header :- Learnt how to create a header for a website and practised and created a header.

* Footer :- Learnt how to create a footer for a website and practised & created a footer.

* login page :- Learnt how to create a login page using html and created a login page.

* sign up page :- Learnt how to create a sign up page and created a sign-up page.

* upload a site :- Learnt how to create a complete website and created a website and uploaded on public.

An internship is an official program offered by organization to help train and provide work experience to students and recent graduates. The concept of working as an intern began a long time ago but has drastically evolved over the years. Internships first started as a **labourer** who would take on young individuals and teach them their art or trade. The purpose at an internship or rather an apprenticeship was to gain new skills to be able to obtain **future work**.

In modern interning, an **intern or trainee** can work for an organization for a specific amount of time. Intern can work for **1-6 months** or longer depending on the company and the industry. **Internships are popular amongst graduate and undergraduate** students who need to gain research or valuable work experience. Almost every sector and type of company, from a large **Multinational** corporation to a small start-up, now offers internships. **Internships** can be an excellent, low-risk recruitment tool.

Internships are specific work situations in which individuals work on a temporary basis for an Employer to gain work experience in their chosen field.

Internship Outcomes:- Internships have traditionally been offered to younger workers, usually college students looking to gain experience before they graduate. However, they are increasingly being sought out by and offered to workers changing careers. By part taking in an internship, you will be able to gain real life exposure, grow your knowledge and determine.

Internships not only provide you with the first-hand experience in the real working world not also enable you to understand the career trajectory for your desired job title. I can learn how to apply the knowledge you have acquired during an internship to your future workplaces.

Internships not only provide you with the first-hand experience it shows how to survive in a competitive world.

Conclusion:-

I am very much happy with my internship. Earlier, I have completed "community service project" [CSP] how I am attached to "MALTech" solutions for learning "UI developers" which are necessary for jobs in the future.

The "Teacher" and "supervisor" explained the clarity of job roles in Government and private sectors. They are maintaining good atmosphere among the students and maintained strict discipline rules. They have following time schedule for each class. The working environment is well and good.

I really enjoyed my internship, it's a memorable event and very useful for my career and for job opportunities. My heartfelt thanks to "supervisor", "principal" and "computer science Department", "college", "university" and "Government of Andhra Pradesh" for making me a knowledge person.

Total Outcomes of the Internship Technical Skills Acquired

Technical skills are the specialized knowledge and experience required to perform specific tasks and use specific tools and programs in real world situations. Diverse technical skills are required in just about every field and industry, from "IT" and "Business" administration to "health" care and "education". In fact, many entry-level positions across industries require basic technical skills, such as cloud "cloud computing," "social media" platforms.

They are many examples of more advanced technical skills that a job might require include programming languages, technical writing, or data analysis, unlike workplace skills, also called "soft skills" such as communication and time management, technical skills often require specific education and training to acquire.

Technical skills :- I learned the following few technical skills, but not in depth. Sometimes referred to as hard skills, involve the practical knowledge. I use in order to incomplete tasks. some skills I use in order to complete tasks.

Some Examples Of technical skills that I learned :-

- * Gmail creation
- * using skype
- * Kanban flow
- * Google Doc's
- * Google Sheets
- * Excel
- * PPT
- * communication skills
- * Interview skills
- * Zoom meetings.

The following skills are the necessary for Job:-

- * Positive Attitude. Being calm and cheerful when things go wrong.
- * Communication you can listen and say information clearly when you speak or write.
- * Team work, self-Management
- * Willingness to learn, decision making, Resilience
- * Thinking skills & problem solving

Total Outcomes of the Internship Managerial Skills Acquired

First I can understand what is meant by managerial skills. Managerial skills are the knowledge and ability of the individuals in a managerial position to fulfill some specific Management activities or tasks. This knowledge and ability can be learned and practised. However, I acquired through practical implementation of required activities and tasks.

This skill will help me to manage people and technology. I understand the how to do work with planning and how to improve the decision making during working hours, how to lead the team work, and how to manage the time and finally I understand how to reach your/our goal in future, all there I observed in my internship.

Types of Managerial Skills:- There are three types of skills that are Essential for Successful Management process.

* Technical skills

* conceptual skills

* Human or Interpersonal

Management skills.

Technical skills :- These skills tell us, knowledge and ability to use different techniques to achieve what we want. Technical skills are not related only for machines, production tools or other equipment. I observed skills that will be required to complete the office work within the stipulated time.

Conceptual skills :- I understand the conceptual skills are necessary to improve our knowledge and ability. I can easily see the whole through analysis and diagnosis of different conditions. I observed that conceptual skills are vital for top managers, less critical for mid-level managers in the company.

Interpersonal Managerial skills :-

Human or interpersonal Management skills are much needed to enhance our knowledge and ability to work with different people. One of the most critical management tasks is to work with people. These skills enable students/Employees to become leaders and motivate other students for better accomplishments. These are essential skills for all hierarchical level company.

Total Outcomes of the Internship Improve Communication Skills

Having good English communication skills

is necessary across many industries and Job roles. The ability to express yourself clearly and confidently can help you on a personal and professional front. Regardless of your Existing skills, you should work on your English communication to a advance in your career.

In this internship I also learned some Basic communication skills in English Language. Basic communication skills are necessary for Effective communication in any Environment, Especially in your Work place.

During my internship I followed Reading, writing, listening and speaking for improving my language skills. I slightly improved oral and written communication. Sometimes I talk to my friends in English language, which gave me confidence. I can understand others while they are speak in other languages. I followed slow speaking practised with my friends and others too, and I read English newspapers and listening English videos and audios.

Whenever I have time regularly sentence formation, listen to others, ask questions are helped me a lot to improve my communication skills during my Internship.

Total Outcomes of the Internship Enhance abilities in Group Discussion, Participating in teams, Contribution as a Team member, Leading a Team/ Activity

I understand that group discussion is a type of discussion that involves people sharing ideas or activities. people in the group discussion are connected with one basic idea.

Based on that idea, Everyone in the group represents his/her perspective Group discussion is a discussion that tests the candidates skills, such as leadership skills, communication skills, social skills and behaviour, politeness, teamwork, listening the ability, General awareness, confidence, problem solving skills Etc....

Group discussion is always performed around the table. people can sit in any arrangement but Everyone should be able to see Everyone. It is also a discussions are an Essential part of testing candidates in the Organization, requirement process Etc.... It also plays an important role in improving the skills of a student.

I was participated in few group discussions in my college and few internship classes. Due to this discussions my confidence levels are increased and I am thinking while.

I am speaking the words. My communication is some better if compare with the previous year. I can observe the team work is more important for complete the any task. I also observed that during the work process. We face many problems, but we can overcome to that.

Student Self Evaluation of the Short-Term Internship

Student Name: K. Nandini Kumari Registration No: Y203016043
~~shot term~~
 Term of Internship: From: 29/09/22 To: 28/11/2022
 Date of Evaluation: 28-11-2022
 Organization Name & Address: MALtech solutions. Bapatla

Please rate your performance in the following areas:

Rating Scale: Letter grade of CGPA calculation to be provided

1	Oral communication	☐ 1	☐ 2	☐ 3	☐ 4	☒ 5
2	Written communication	☐ 1	☐ 2	☐ 3	☐ 4	☒ 5
