Awareness Program on Breast Feeding Week Celebrations

Date: 06-08-2018

Objectives:

To create awareness among students about the importance of breast feeding and how avoiding breast feeding can lead to cancer.

Description:

World Breastfeeding Week is celebrated every year from 1 to 7 August all over the globe to encourage breastfeeding and improve the health of babies around the world. Chief Guest, Dr. Kamala Sree, Medical Officer, Govt. Area Hospital, Chirala, delivered a valuable message on the Importance of Breast Feeding and created awareness about preventing Breast Cancer. Breastmilk is the ideal food for infants. It is safe, clean and contains antibodies which help protect against many common childhood illnesses. Breast feeding should be given to new born babies upto 3years.

Outcomes:

Students learned about the importance of breastfeeding. They also learned that avoiding breastfeeding can lead to cancer.

No. of Participants: 95
