**World Breastfeeding Week Celebrations**

**Date: 07-08-2019**

**Objectives:**

To create awareness about the importance and need of breastfeeding among girl students.

To enlighten the students about the physical, psychological, and emotional health benefits of breastfeeding to the mother and child.

**Description:**

WEC organized an awareness program on the importance of breastfeeding as part of the 'International Breast-Feeding Week' (Aug 1st to 7th). Dr. Sireesha, Area Hospital, Chirala was the chief guest. In her talk to the gathering, Dr. Sirisha area hospital Chirala described how breastfeeding protects women from breast cancer. and said that the newborn infant should be given the mother's milk within the first half an hour. Promoting breastfeeding is one of the smartest investments a country can make to build its future prosperity. Increasing rates of breastfeeding is important in driving progress against global nutrition targets - against stunting, anaemia in women of reproductive age, low birth weight, childhood overweight and wasting. Lecturers from various departments attended the meeting.

**Outcomes:**

The students who spoke at the end of the meeting shared their views on the issue. They expressed their thankfulness for arranging such an informative and educative program on an important topic.

**No. of Participants: 110**
